## BRIGHTON COLLEGE'S NEW SPORTS & SCIENCE FACILITY - PROGRAMME UPDATE

### January 2018

Our first tower crane (TC1) was successfully erected during the first week of January having found a window of opportunity during the windy start to the year.

The base for our second and final crane has been cast during the first half of January with an anticipated erection of TC2 at the end of March.

January has seen a continuation of Muck away from site and the dig reaching the final reduced level at the North end of the project footprint.

### February 2018

During February we will continue with excavations reaching more of the final reduced level followed by the installation of sub-basement drainage.

Labour levels on site will remain for the months of January and February with a constant flow of lorries removing spoil.

The project is currently running on time.

## Building fact file:

- Tonnage of steel frame to be used for sports & science building - 600 tons of steel.
- Concrete to be used in basement - 3,000 cubic meters.
- Meter volume of basement excavation - 15,000 cubic meters.

## Community Engagement

As part of our Community Engagement Strategy we actively engage with the local community to:

- Promote local labour
- Provide work experience opportunities
- Work with local schools and youth clubs
- Run fundraising events (Look out for information on our charity parachute jump this summer!)

## Local and looking for work?

As one of the largest UK most successful privately owned businesses we have a vested interest in engaging with the local communities in which we work. We make every effort to support local workers, residents and the wider community.

Working alongside The CCS, we have developed a local employment initiative. If you hold a valid CSCS licence and would like to work on site, please call either:

**Search** on 01273 855021,  
**Elliot Scott** on 01293 817749 or  
**Randstad** on 01273 974829  
to discuss future opportunities.

We are registered with the Considerate Constructors Scheme (CCS). The CCS is the national initiative set up by the industry to impose high standards within the construction industry. This means that we pride ourselves on complying with a Code of Considerate Practice, designed to encourage best practice beyond statutory requirements.

On site CCS contact details:

**André Henriot** (03330 772 148)  
**CCS Registration Number:** ID 60156

## Site Operation Hours

The current hours of operation agreed with Brighton & Hove Council are:

**Monday to Friday: 8am - 6pm**

## YOU said, WE did!

**You asked for Sutherland Road to be kept clean of site waste.**

**We arranged for a road sweeper to clean the road on a daily basis as well tracking the lorry routes away from the site to ensure street cleanliness.**

**We have also organised for all lorries leaving our site to be wheel washed by our wheel washing staff.**

## QR Codes

We have placed posters of our QR Codes along the site hoarding perimeter. Simply use your smartphone, iPhone, Android or Blackberry camera to scan the QR Code to find out more about the site works.
